MIB FOUNDING GATHERING

June 25, 5-7 PM | Clayton Hotel, Cherry Creek

Featuring MIB Ambassadors Tanya Pomirchy & Skye Perry

JOIN A NEW COMMUNITY OF LEADERS UNITED BY MUSIC AND PURPOSE

Many successful professionals across every sector trace qualities like creativity, confidence, discipline, adaptability, and collaboration back to music. Yet in far too many Colorado schools, access to music education has become a luxury rather than a given.

Musicianship in Business (MIB) is a new initiative from Education Through Music-Colorado, bringing together entrepreneurs, executives, and innovators who recognize the lasting influence music has had on how they think, lead, and succeed, and who believe the next generation deserves access to that same opportunity.

On June 25 at the Clayton Hotel, we will host an intimate inaugural event, convening a carefully curated group of business leaders and community changemakers for an evening of conversation, connection, and music.

Join us to explore what it means to be part of this growing ambassador community: accomplished individuals who help expand access to music education by lending their voice, opening doors, strengthening relationships, and demonstrating through their own journeys the transformative potential of music in a child's life.

If this mission resonates with your own journey, we invite you to express interest in joining this gathering and learning more about Musicianship in Business.

RSVP at mib@etmcolorado.org (attendees are welcome to bring one guest)

THE ORGANIZATION POWERING THIS NETWORK

Education Through Music-Colorado (ETM-CO) restores sustained, high-quality music education in public schools where it would otherwise be absent. In the current school year alone, ETM-CO is reaching 5,000 students through weekly in-school music instruction, educator development, and transformative student musical experiences. As Colorado's affiliate of the national Education Through Music network, ETM-CO is part of an organization that will surpass 500,000 students served nationwide this year, reflecting more than three decades of advancing music education.
